

**NEW TOWN**

## **Plenty for wealthy**

IN seeking to defend his Cambria Green development (Talking Point, March 23), Ronald Hu makes no apology for “looking to attract well-to-do Tasmanians, interstate visitors and international travellers”. There is an abundance of resorts for the affluent in Australia and around the world. There is not an abundance of pristine natural environments in the world. We must preserve those special places we have in Tasmania and mainland Australia. Future generations will thank us.
